## Bananas.

A writer in the Scientific American thus speaks of the wonderful fecundity of the banana: "It is safe to say that in Jamaica alone, whence we derive nearly one-third of our banana supply, the waste amounts up into the hundreds of thousands of bunches each year, though less than one-tenth of the available banana land is yet under cultivation. Bunches that are undersized, or that contain a certain proportion of undeveloped 'fingers,' are rigorously cast out by the buyers, and at many of the ports these may be had for the asking or at a purely nominal price. The writer has often seen such, and bunches that were too far advanced in the ripening process to stand shipping, left on the wharf after a vessel's departure, with no one anxious to claim them, the supply of rejected fruit being so far in excess of the needs of the immediate community, nearly all of whom were themselves banana producers. Yet, as Von Humboldt has estimated, thirty three pounds of wheat and ninety-nine pounds of potatoes require the same space of ground as will produce 4,000 pounds of bananas, and three good-sized bananas contain as much nutriment as a four-ounce loaf of bread. The banana is the ability of this 'tree of paradise' (musa paradisiaca) to extract the greatest amount of vitalizing material from ground and sun and rain. It has well been said that this whole tropical region is 'the land where that rare old alchemist the sun, packs earth's most delicate and fragrant essences in most attractive shapes.' And of the banana another author has written: 'They really save the amount of food from a given piece of ground with the least labor.'"

## Lantana Favored.

It is satisfactory to learn that the lantana plant, which is considered by most farmers to be a very obnoxious weed, is of some use to cultivators. The cane-growers on the Clarence and Richmond declare that the lantana is a great boon to them. It is not difficult to eradicate, and where it grows it chokes out everything else, neither grass nor weed of any kind having a chance to grow with it. The Lismore correspondent of the Sydney Mail writes that there is now quite a rush to obtain lantana-covered land for the purpose of cane planting, and a few farmers are bold enough to assert that even many years have passed land owners will plant lantana to restore the fertility of cane land and to free the soil from troublesome weeds.—[Ex.]

There has been a report around town that the steamer Waimanalo has been seized by the Custom House authorities on account of the opium which was found on her on Wednesday. There is no truth in the report as the drug was part of the cargo and therefore the owners are not responsible.

Custom House Guards A. Clark and C. Clark have been suspended for a week pending an investigation of a charge of "disobeying orders" against them. Both men were ordered to remain up the other night to await the arrival of the steamer Waimanalo, which, from all accounts, they failed to do.

George H. Paris, the local agent for the Columbia bicycles, took a number of wheels out of bond yesterday. The Collector-General wanted to hold the bicycles until the expiration of ten days from the date of the Queen's signature of the bill restoring the old duty of ten per cent, but Attorney-General Brown ruled otherwise, so the wheels were given up without delay.

**The Opium Trade.**  
LONDON, Nov. 11.—The Earl of Kimberley, Secretary for India, replying to a deputation, said he was not prepared to surrender the revenue derived from the Indian opium trade, nor did he believe that any government would consent to the suggestion.

## WHARF AND WAVE.

DIAMOND HEAD, Dec. 22.—9 p.m. Weather, clear; wind, fresh S. W.

The German bark Bylgia, Capt. Ploeger, was berthed at Brewer's wharf yesterday, 78 days from Hongkong with 800 tons general merchandise. The captain reported exceedingly rough weather almost the entire voyage. Encountered a heavy typhoon on the third day out and was obliged to run the vessel before the wind for 50 miles to get clear of it. The worst weather set in between Yokohama and Honolulu, the prevailing winds being head winds. The Bylgia brought sixteen Chinese passengers. Only three of them having return permits, the others will be liberated under bonds. The Bylgia will return to Hongkong within a fortnight. Wing Wo Chan Co. are the agents.

The British bark Velocity is about seventy days out from Hongkong.

The bark Albert will leave for San Francisco about the 29th inst. She took in the Pele's cargo yesterday.

Chief William McGregor, of the steamer Mokoli, is overhauling the steamer Lehua, and is consequently the hardest worked man in town.

The schooner Liholihi, Capt. D. McNeill, arrived on Thursday morning, 184 days from San Francisco. She is now lying near the O. S. S. Co.'s wharf.

The bark J. C. Glade sailed yesterday for San Francisco with 34,493 bags sugar.

The steamer Hawaii will not sail for Hanalei till after New Year's Day.

The bark S. C. Allen is eighteen days out from San Francisco.

The Baker submarine boat, which was constructed at Detroit for the torpedo service, was recently towed into Chicago after a perilous voyage. The vessel is 40 feet long, 9 feet wide, and 14 feet deep. She weathered the storm by being lowered about 10 feet below the surface of the lake, and was raised every two hours to enable those on board to obtain a supply of fresh air.

OTTAWA, Ont., Dec. 2.—Word has been received here recently that the bark Eliza had been wrecked off the coast of Brazil on a voyage to Gaspe for a cargo of fish. She had sailed the seas for 120 years, and long before the days of steamers, ran as a packet between Nova Scotia and Plymouth, England. Notwithstanding her great age, the old vessel's oaken timbers were almost as staunch and sound on the day she was wrecked as when she was launched.

Charley Tong Sing, who was steward of the ill-fated Jeanette, and who now resides at Astoria, has received from the Secretary of the United States Navy a silver medal and clasp, accompanied by a complimentary letter. The medal is a handsome piece of jewelry, showing on one side the Jeanette breaking up in the ice, and on the other the following inscription: "To Charley Tong Sing, in memory of many perils encountered—1879-1882." This is only the second case in the history of the United States of the presentation of a medal for conspicuous bravery to a native born Chinaman.—[Ex.]

A rare visitor to English waters has been caught off the Lincolnshire coast between Skegness and Gibraltar Point—a file-back sunfish. The creature weighed nearly three quarters of a ton and was over seven feet long.

PORT TOWNSEND, Wash., Dec. 6.—Charles Johnson, late master of the smuggling schooner Halcyon, was arrested here to-day for a petty offense. He gave an account of the Halcyon's voyage last August when she sailed from Victoria laden with Chinese and opium. He took on board at Victoria 180 Chinese men and one woman and 580 cases of opium. The vessel sailed direct to Monterey Bay, California, where, on the ninth day of the voyage, she landed the entire cargo. The landing was made at night, and a boat containing a dozen Chinese capsized in the surf, but no lives were lost.

**TO FAST FOR SCIENCE.**  
A Fifty-Day Experiment to Be Tried for an Ohio University.

CLEVELAND, Ohio, Dec. 5.—Mr. Arthur Wiellmeau began his fifty days' fast to-day under the auspices of the Western Reserve University Medical School. Wiellmeau for weeks has been in careful training, and if no unexpected trouble arises will enter the fast with a body well prepared. The fast will take place in the Y. M. C. A. building and the entire medical faculty of the Western Reserve University was present to see the faster's condition at the start.

General "Salvation" Booth of "Darkest England" fame, says that the book has thus far cost \$925,000 and the receipts are only \$800,000. He is seeking to save himself by calls for charity.

## THE HILO ELECTION.

The First Precinct Goes Almost Unanimously For Nawahi.

The steamer Waialeale arrived at 6 o'clock last evening, from Hanalei, and reported very heavy weather in the Hawaii and Maui channels on Wednesday night.

She brought news about the Hilo election. Joseph Nawahi received 56 votes from Pohoiki, while Akina received only 4. Nawahi's total votes are 355, against J. K. Akina's 216 votes, a majority of 139 votes. Fifty-seven votes were rejected.

Mr. Nawahi and party left Hilo on Tuesday afternoon at 5 o'clock. There were two whale-boats, one being commanded by the native pilot of the port of Hilo. Both boats passed off Hanalei at 9 o'clock on Wednesday morning, heading either for Mahukona or Honolulu. The steamer Waialeale was at Hanalei, and left that port at 2 o'clock in the afternoon for Honolulu, via Lahaina. According to the purser's statement, the probability is that Nawahi's boats put in at Mahukona during Wednesday night, as the weather was too rough for open boats to encounter.

**THE TOTAL VOTE.**

**"August Flower"**

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Broadway Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."
